Frosted Window Films

*Above picture of Computerized graphics
cut out of Etch K

Frosted films can be applied to the entire glass for privacy or computerized graphic cut for lettering, logos, or creative designs.

Frosted Window Films are one of the most widely used and most versatile window films available. The films are opaque to translucent but still allowing high levels of natural light to pass through. It can also be computer cut. These attributes make it the perfect material for privacy, glass decoration, corporate branding and manifestation for windows and glass partitions.

Our in-house Graphics department allows us to provide you with design options and artwork proofs prior to the installation of your glass decoration. We produce all computer cut the latest software and equipment. All this ensures quality control, keeps you close to the project and gives you unsurpassed turnaround.
