

GRAFFITI-FREE™

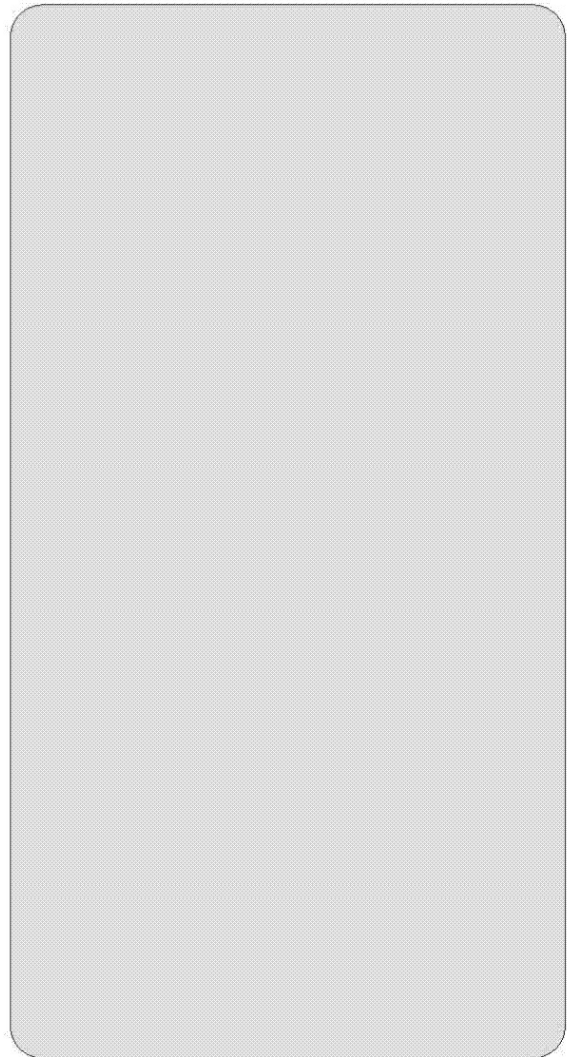

Graffiti vandals cost American retailers more than \$600 million annually in replacement costs associated with scratched glass. Madico has an answer - Graffiti Free security window film. This 6-mil multi-ply film is designed to protect both glass and polycarbonates:

- Storefront windows
- Display and restroom mirrors
- Glass and polycarbonate displays
- Glass elevators and escalator railings
- Bus shelters

Optically clear and distortion free, Graffiti-Free security window film acts as a sacrificial barrier to protect glass from costly graffiti, etching, or high traffic wear. After such an event has occurred, the damaged Graffiti-Free film is removed and a new layer is installed at a cost significantly less than the cost of removing and replacing the glass. Graffiti-Free....

- Protects against many forms of vandalism, especially etching - provides a barrier against paint, permanent markers, keys, files, jewelry, stones, steel wool and tungsten carbide scribes.
- Improves shatter resistance - helps hold shattered glass in place for increased security and personal safety.
- Increases durability of glass - stops the underlying surface from being defaced
- Guards against costly fading - special ultraviolet inhibiting agents reject 99% of the sun's rays and reduce fading of display merchandise, interior furnishings and artwork.
- Preserves and protects invisibly - provides a clear view without "mirroring" or darkening.
- Is easy to maintain - cleans with soap and water and other ordinary commercial cleaners.

MADICO PROTEKT® FILM

Graffiti-Free for glass and our blister free version for polycarbonate, Lexan, or acrylic.
